EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a. In the paragraph beginning at page 8, line 13 as amended 3/8/07, "breaking" was changed to, --braking--.
- b. In claim 16, line next to last line "the" before "bores" was deleted (the bores have not been previously recited in the claim as corresponding to the front and rear couplings).
- c. In claim 24, line 2 "the raised edge" was changed to: --a raised edge--, as claim 24 depends from claim 16, and the raised edge was recited in claim 23.
- d. In claim 29, line 12 "a front coupling" was changed to: --the front coupling-- in order to avoid double inclusion (a front coupling was already recited in claim 29, line 8).
- e. In claim 29, line 14 "the bore" was changed to: --a bore--, as the bore corresponding to the front coupling was not previously recited in claim 29.
- f. In claim 16, line 11, "a first side" was changed to: --the first side--, as the first side is already recited in claim 16, line 8.

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach, in combination with the other elements recited, a single sheet metal part forming the arm with bores corresponding to the front and rear couplings having appreciably perpendicular axes and having a vertical wall along the front side (claim 16) and (claim 29) forming a triangular flat surface from a single sheet metal part, creating a raised and dropped edge on a side situated between a front coupling and a wheel coupling, and creating a vertical wall on a side situated between a rear coupling and the wheel coupling, then creating a flange in an extension of a bore corresponding the front coupling.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
